

The Year Round Affordable Family Camp

NOTICE:

Our drinking water protection regulation states that drinking water from a water supply system shall be disinfected if the water originates from surface water or ground water that, in the opinion of a drinking water officer, is at risk of containing pathogens.

THEREFORE:

We shall notify all users of our water system, to boil, or otherwise disinfect there water prior to use.

Acceptable Disinfectant Methods:

(A) Boil (at a rapid boil) for at least three (3) minutes.

OR

(B) Add two (2) drops of fresh household bleach per liter of water (Nine (9) drops per gallon), to a clean covered container and let stand for at least 20 minutes before use.

Thank You;

Jessica & Justin

(B) Add two (2) drops of fresh household bleach per liter of water (Nine (9) drops per gallon), to a clean covered container and let stand for at least 20 minutes before use.

(Winter) Water Jug Instructions:

When your water jug requires filling, please bring to the front lobby & please place at the end of the hallway in the entrance to the main lodge and it will be refilled and dropped off back at your cabin.

Please Remember:

The main wash house is shut down and the cabins do not have running water.

Please feel free to come and use the hot showers and flush toilets located in the entry way of the main lodge!

You are welcome to pour warm water down the sink as needed. Please refrain from pouring cold water down, as it may freeze in colder weather.

Thank You;

Jessica & Justin
